### ABOUT ME

"I'm a junior full-stack developer passionate about video games and traveling. I consider myself a professional with a high capacity for adapting to changes and working under pressure. Additionally, I really enjoy working in a team. I am eager to continue learning and improving every day. I would like my work to have a social impact and help people. My goal and objective is to keep learning and surpassing myself.

A phrase that defines me would be: "We shouldn't stop playing just because we're afraid of losing."

### LANGUAGES

Spanish: Native

English: B2

Catalan: Basic

### EDUCATION

[FactoriaF5 Bootcamp Full stack developer 850h](#)

September 2022 - March 2023

- Learning and understanding the logic of programming languages, specifically HTML, CSS, JavaScript, and PHP.
- Learning Agile methodologies, such as Scrum.
- Using and implementing frameworks such as SASS, React, and Laravel. And other libraries such as Bootstrap and Tailwind.
- Learning tools such as GitHub, Visual Studio, Figma, and Trello

### EXPERIENCE

2016-2022 [Pret A Manger](#).

British multinational company known for offering fresh and organic products such as coffee and sandwiches. You learn how to work in a team, under pressure, and with organization. Following standards and values are essential for the proper performance of the store and the company.

2022-2023 [FactoriaF5 Bootcamp](#).

- Ranking App: Project developed with the React framework where I learned to use routes, components, useState, useEffect, and useContext hooks, as well as how to call an API with axios.
- Colombiashop: Project developed with the React and Laravel frameworks where I learned how to work with the model-view-controller pattern, use JWT for authentication and route protection, create related tables, and work with phpMyAdmin.
